

The Mansfield YMCA has partnered with **ANG AIR NATIONAL GUARD** !

Effective April UTA service men can use the Mansfield Y exclusively for their recreation and relaxation activities!

We honor the service of our armed forces especially ones that are local in our community, so we have decided to open the doors after hours so after a long day of drill, our military hero's can have a place to enjoy themselves in an active and safe environment.

The following will be made available:

- The gymnasium, one side will be set up for volleyball and the other side will be for basketball play.
- The pool area with hot-tub
- Access to locker rooms with sauna's, steam rooms and showers
- The aerobic studio and equipment
- Two large classrooms
- Two racquet ball courts
- Running track
- Cardio fitness room
- Large free-weight area
- Lounge area with vending
- **Basketball and Volleyball leagues can be organized and ran during their time in the facility!**

Guard members will be under their own supervision with one or two YMCA employees working the facility. It is expected that everyone will be responsible and adhere to all the posted gym rules which are located throughout the building.

There will be a \$3.00 fee per military members for admittance into the Y which will help offset the cost of keeping the building open and running after hours.

The hours will be Saturday evening during normal UTA scheduled drills from 5-10 P.M.

PLEASE BE SAFE, RESPONSIBLE AND HAVE A GOOD TIME

Our way of saying THANK YOU FOR YOUR SERVICE!
